

Dear YMCA Community,

The Alamance County Community YMCA is dedicated to the safety and health of our members, our staff, and our entire community. Since the onset of COVID-19 in our community, our Y has continually adapted programming and protocols to go above and beyond in keeping you safe.

Beginning Monday, November 23rd, masks will be required at all times in YMCA facilities and when indoor fitness takes place.

As you know, COVID cases in our region continue to rise dramatically each day. We're making this change to our policy to keep our community safe and to keep our YMCA open to serve you.

Please remember the simple, but critical message from the state to **Know Your Ws.**

Thank you for joining the our YMCA in keeping the community on track to stop the spread of COVID-19. Most of all, thank you for being a part of the YMCA.

Walter Britt
CEO
